The automaker had a 5.76% stake in SolarCity, plus boards at both companies. It was planning to sell its stake at a loss, or "take the money and run," the report said. Tesla has been cutting losses from its holdings for months, including selling off a \$50 million stake in Chinese e-commerce company Yihaodian. The automaker has been selling off pieces of its portfolio as it seeks to turn around its finances. Earlier this week Tesla received \$389 million in new financing from SoftBank and Goldman Sachs. In July, Tesla received another \$1.2 billion from the same two funds and Apple. An agreement in principle was reached to sell its shares in Tesla's solar business to SunPower (NASDAQ: SPWR) for \$200 million to \$225 million. However, reports indicated that Tesla had lowered the bid for its stake in SolarCity to \$25 million to \$45 million. The agreement is expected to be finalized in the next few weeks.
