Apr 9, 2020 Applying Building Energy Simulation. Q: How do I combine a fragment shader with another fragment shader in OpenGL? Is it possible to make a fragment shader that calls another fragment shader? The thing is I have two shaders in my project that I want to use together. I am using D3D9 on windows and I only want to use GLSL, but I am not able to make the combination of both shaders. This is my code for the first shader: // This shader renders the cube float4x4 projectionMatrix; float4x4 viewMatrix; float4x4 modelMatrix; // Calculate the projection and view matrices void buildProjectionMatrix(float aspect) { float x = aspect; float y = 1.0f / aspect; float z = 1.0f / y; projectionMatrix = float4x4( x, 0.0f, 0.0f
