CS:GO is the perfect game for competitive Counter Strike players. In matchmaking you can play in official or casual matches for various skill levels, ranking you from Bronze to Diamond. Despite being a veteran, I'm not an expert at CS:GO, I've had a fair share of hits and misses. Some games are bad even when it's a newcomer on the team, that's why you need a good team manager. I've found a bunch of helpful tools that will make you a pro Counter Strike player. You will never be a noob again, there's plenty of resources on the Internet. Let's see what you need to become a pro CS:GO player. The CSGO Team Manager is a lightweight, powerful tool which provides you with a simple interface. It contains a database of matchmaking data, ratings and players. You can manage your profile, your match history, post reports about your matches or details of communication with players. CSGO Team Manager has a simple and lightweight interface and is free and open source.

Features
